## About Community Housing Partnership

Founded in 1990, Community Housing Partnership's award-winning approach to ending homelessness is one of the most successful in the country.

We provide individuals and families with an innovative combination of housing, support, training and employment opportunities that allows them to transform their lives. We currently have 755 units of housing, serving more than 1,600 people each year. We also have 167 new units of housing in development to help even more people lead richer lives.

We know these are tough economic times and that's exactly why we need your help more than ever. We're counting on you to support our success — we help people achieve their dreams and end homelessness in their lives for good.

So come celebrate the impressive talent and transformation of our tenants in this very reasonably priced event. It is our biggest fundraiser of the year and a great show!
